CAREER OBJECTIVE

- With a Kick start career as a Data Engineer, who have a strong organizational skills and great commitment over work, looking forward to be more contributor in the Data Science Domain with my soft skills and Technical skills by diving more deeper and satisfying multiple roles and clients

EXPERIENCE

DATA ENGINEER,

LatentView Analytics LTD., Chennai

October 2022 – Present

- Undergone a 9-week bootcamp where I learnt all the tools and skills to be a productive person to meet the responsibilities of the job role.
- Got familiarized in pipeline building, creating a bridge between local host and cloud to meet the requites.

EDUCATION

Jayaprakash Narayan college of engineering, Jawaharlal Nehru Technical University

Mahbubnagar

Bachelor in Mechanical Engineering

August 2022

- Cumulative GPA: 7.0/10
- Relevant Coursework: Probability and statistics

Jawaharlal Nehru Government Polytechnic, State Board of Technical Education and Training

Ramanthapur

Diploma in mechanical engineering.

May 2019

- Cumulative Percentage: 72

SKILLS

- Data Science Technologies:**

Excel	<div><div></div><div></div><div></div><div></div><div></div></div>	SQL	<div><div></div><div></div><div></div><div></div><div></div></div>	Written communication	<div><div></div><div></div><div></div><div></div><div></div></div>
Power BI	<div><div></div><div></div><div></div><div></div><div></div></div>	Creativity	<div><div></div><div></div><div></div><div></div><div></div></div>	Adaptable	<div><div></div><div></div><div></div><div></div><div></div></div>
Team work	<div><div></div><div></div><div></div><div></div><div></div></div>	Decision Making	<div><div></div><div></div><div></div><div></div><div></div></div>	Self-Motivated	<div><div></div><div></div><div></div><div></div><div></div></div>

- Miscellaneous Technologies & Software:** MS Office, MS PowerPoint, Auto CAD, SolidWorks.

COURSES & CERTIFICATES

- Pursuing data science course virtually in Vertocity.
- Introduction to MS Excel from Simplilearn.
- Certified for completion of data visualization from Great-Learning.

PROJECTS

- National Health Survey**
 - Visualization and dashboard creation on Indian diseases statistics using excel**
 - I created a visualization on the statistical data which are related to the diseases and the lifecycle of women and men across India categorized on the states they live.
 - I organized and formatted the data by removing the unwanted and null values with which I was able to create better insights and understand the problem statements.
- Supply and stock database management system**
 - This is a capstone project that increases the efficiency of a ware-house, flow of products in super market.
 - In this capstone, I create the tables, and gave primary and foreign key to connect those tables
 - I restricted data by using the constraints and also optimised the retrieval data with the help of views, procedures and functions.

RESPONSIBILITIES

Technical assistant *Automatic shutter opener (Diploma)*

- We were a team of 4. I have been assigned as technical support for the project which eventually helped me in production estimation, document handling and interactive with teammates.

Class Representative *Final year (U.G)*

- I was the student mentor for my class during my final year. During this period, I lead class with subject knowledge and acted as a gateway between students and faculty in following up the troubles faced by students. This led me to a person who is capable of taking correct decisions and to see a problem in different perspectives
